

NECA Membership Benefits, Oregon Columbia Chapter

Electrical contractors rely on NECA for essential resources that enable them to make informed business decisions, deliver exceptional customer service, and harness cutting-edge technology.

Join Us & Discover the Difference Membership Makes

Let's Build a Profitable Partnership

NECA's foremost priority is to support your profit generation. Our programs are tailored to help you thrive and prosper. NECA aids in envisioning opportunities and equipping you with the tools to transform them into solid business strategies.

Enjoy Robust Benefits Packages

NECA provides tangible benefits to members and their employees including group health and life and disability insurance. Other programs include workers' compensation insurance (SAIF in Oregon), and more.

Receive Expert Management Support

When it comes to industry-wide initiatives, NECA is the most efficient and cost-effective choice. Support includes advocacy, business resources, safety and compliance assistance, industry research, networking, and more.

Access Advanced Safety Services

Discover NECA's exceptional safety services, led by our experienced Safety Director, Barry Moreland. Access safety manuals, on-site consultations, and program evaluations. Barry, a skilled instructor, and OSHA programs expert, will enrich your safety efforts with his vast knowledge and support.

Explore Cutting-Edge Educational Opportunities

The NECA Learning Center provides more than 25 customized seminars for electrical contractors, from field supervision to estimating and finance. In addition, NECA National offers hundreds of online courses for our members at special prices.

About Our Education Fund

The Oregon Columbia NECA Board of Directors allocates an annual education fund.

The First Year

Become a NECA member and in the first year, your company will receive an initial \$1,000 credit from our Education Fund for educational expenses.

Moving Forward

Subsequently, you receive a portion of that designated amount based on your company's average hours worked. For instance, if the board designates \$500,000 for the education fund and your company's average hours account for 1% of the total hours worked in our jurisdiction, you would receive 1% of the \$500,000, equivalent to \$5,000.
